PRIMO WATER CORPORATION ANNOUNCES STRONG SECOND QUARTER 2022 RESULTS AND RAISES FULL YEAR GUIDANCE

Company issues third quarter guidance and raises full year revenue and Adjusted EBITDA guidance

TAMPA, FL - August 11, 2022 - Primo Water Corporation (NYSE: PRMW; TSX: PRMW) (the "Company" or "Primo"), a leading provider of sustainable drinking water solutions in North America and Europe, today announced its results for the second quarter ended July 2, 2022.

(Unless stated otherwise, all second quarter 2022 comparisons are relative to the second quarter of 2021; all information is in U.S. dollars.)

SECOND QUARTER HIGHLIGHTS

- Revenue increased 9% to \$571 million compared to \$526 million (increased 16% excluding the exit of the single-use bottled water retail business in North America and the impact of foreign exchange).
- Reported net loss and net loss per diluted share were \$23 million and \$0.14, respectively, compared to
 reported net loss and net loss per diluted share of \$8 million and \$0.05, respectively. Adjusted net income
 and adjusted net income per diluted share were \$33 million and \$0.21, respectively, compared to adjusted
 net income and adjusted net income per diluted share of \$28 million and \$0.17, respectively.
- Adjusted EBITDA increased 9% to \$108 million compared to \$100 million and Adjusted EBITDA margin was maintained at 18.9% for the quarter.
- Company increases full year 2022 revenue growth expectation to between 12% to 14%, adjusted for the exit of the single-use bottled water retail business in North America, and increases full year 2022 Adjusted EBITDA outlook to between \$415 million and \$425 million.

	For the Three Months Ended									
(in millions of U.S. dollars, except per share amounts, percentages and bps)	Ju	ly 2, 2022	Ju	ly 3, 2021	Y/Y Change					
Revenue, net	\$	571.4	\$	526.1		9%				
Net loss	\$	(22.5)	\$	(8.3)	\$	(14.2)				
Net loss per diluted share	\$	(0.14)	\$	(0.05)	\$	(0.09)				
Adjusted net income	\$	33.3	\$	27.5	\$	5.8				
Adjusted net income per diluted share	\$	0.21	\$	0.17	\$	0.04				
Adjusted EBITDA	\$	108.0	\$	99.5		9%				
Adjusted EBITDA margin %		18.9%		18.9%		0bps				

"I am very pleased with our revenue and adjusted EBITDA growth in the second quarter, accentuating a solid firsthalf performance that puts us on pace to exceed our previous full-year 2022 targets. Our results were driven by improved pricing, volume, and customer growth. Our pricing actions and operational performance give us the confidence to increase our 2022 outlook to 12% to 14% revenue growth (adjusted for the exit of the single-use bottled water retail business in North America) and Adjusted EBITDA to between \$415 million and \$425 million dollars, despite a challenging Euro devaluation, unprecedented inflationary environment and the exit of our business in Russia. As we continue to transform and reshape Primo, we are a fundamentally stronger business than ever before. Our strategy is working as evidenced by our first half 2022 performance and we remain confident in our ability to achieve our long-term 2024 outlook of high single-digit organic revenue growth with Adjusted EBITDA approaching \$525 million dollars," said Tom Harrington, Primo's Chief Executive Officer.

"We are pleased that Primo's cash flow and balance sheet enable us to simultaneously return value to shareholders through regular quarterly dividends, as well as an opportunistic share repurchase program of \$100 million dollars, while at the same time continuing to invest in internal and external opportunities that will further strengthen our operations and drive long-term growth," said Mr. Harrington.

OUTLOOK

Primo is targeting the following results from continuing operations for the third quarter and full year 2022:

	-	2022 nge	FY 2022 Range			
(\$ in millions)	Low	High	Low	High		
Revenue	\$570	\$590	12% ¹	14% ¹		
Adjusted EBITDA Cash Taxes	\$115	\$120	\$415 ~ \$ ⁷	\$425 10

SECOND QUARTER GLOBAL PERFORMANCE

Revenue increased 9% to \$571 million compared to \$526 million (increased by 16% excluding the exit of
the single-use bottled water retail business in North America and the impact of foreign exchange). The
increase was driven by customer growth, increased demand across our customer base, price increases and
the benefit from tuck-in acquisitions, partially offset by the exit from the single-use bottled water
retail business in North America and foreign exchange headwinds. Revenue growth by channel is tabulated
below:

	For the Three Months Ended

Foreign exchange impact		13.2		_		13.2	n/a			
Adjusted revenue excluding foreign exchange impact	\$	570.2	\$	489.6	\$	80.6	16			

- Gross profit increased 12% to \$332 million compared to \$297 million. Gross margin grew by 170 basis points to 58.2% compared to 56.5%, driven by price increases, Water Direct volume growth and the exit of the single-use retail bottled water business in North America, partially offset by foreign exchange headwinds.
- SG&A expenses increased 12% to \$292 million compared to \$260 million. The increase was driven by higher selling and operating costs supporting the volume and revenue growth of the business as well as general inflationary cost increases.
- Reported net loss and net loss per diluted share were \$23 million and \$0.14, respectively, compared to reported net loss and net loss per diluted share of \$8 million and \$0.05, respectively. Adjusted net income and adjusted net income per diluted share were \$33 million and \$0.21, respectively, compared to adjusted net income and adjusted net income per diluted share of \$28 million and \$0.17, respectively.
- Adjusted EBITDA increased 9% to \$108 million compared to \$100 million, driven primarily by price increases, increased demand for products and services across our customer base and the exit of the singleuse bottled water retail business in North America. Adjusted EBITDA margin remained at 18.9% for the quarter.
- Net cash provided by operating activities of \$67 million, less \$49 million of capital expenditures and additions to intangible assets, resulted in \$18 million of free cash flow, or \$21 million of adjusted free cash flow (adjusting for the items set forth on Exhibit 7), compared to adjusted free cash flow of \$26 million in the prior year.

SECOND QUARTER REPORTING SEGMENT PERFORMANCE

During the second quarter the Company realigned certain of its businesses previously included in the Rest of World segment (now renamed "Europe") between the Europe reporting segment and the Other category. The Company's two reporting segments are now North America and Europe. Segment reporting results have been recast to reflect these changes for all periods presented.

<u>North America</u>

 Revenue increased 10% to \$437 million (increased by 17% excluding the single-use bottled water retail business in North America) driven by customer growth, price increases, and increased demand for products and services from residential and business-to-business customers, partially offset by the exit from the single-use bottled water retail business in North America.

ABOUT PRIMO WATER CORPORATION

Primo Water Corporation is a leading pure-play water solutions provider in North America and Europe and generates approximately \$2.1 billion in annual revenue. Primo operates largely under a recurring razor/razorblade revenue model. The razor in Primo's revenue model is its industry leading line-up of sleek and innovative water dispensers, which are sold through retailers and online at various price points. The dispensers help increase household penetration which drives recurring purchases of Primo's razorblade offering. Primo's razorblade offering is comprised of Water Direct, Water Exchange, and Water Refill. Through its Water Direct business, Primo delivers sustainable hydration solutions across its 21-country footprint direct to the customer's door, whether at home or to businesses. Through its Water Exchange and Water Refill businesses, Primo offers pre-filled and reusable containers at approximately 14,000 locations, water dispenser sales at approximately 9,000 locations and water refill units at approximately 24,000 locations, respectively. Primo also offers water filtration units across its 21-country footprint.

Primo's water solutions expand consumer access to purified, spring, and mineral water to promote a healthier, more sustainable lifestyle while simultaneously reducing plastic waste and pollution. Primo is committed to its water stewardship standards and is proud to partner with the International Bottled Water Association (IBWA) in North America as well as with Watercoolers Europe (WE), which ensure strict adherence to safety, quality, sanitation and regulatory standards for the benefit of consumer protection.

Primo is headquartered in Tampa, Florida (USA). For more information, visit www.primowatercorp.com.

Non-GAAP Measures

To supplement its reporting of financial measures determined in accordance with U.S. GAAP (Generally Accepted Accounting Principles), Primo utilizes certain non-GAAP financial measures. Primo excludes from GAAP revenue the impact of foreign exchange and the impact of the now-exited small-format single-use retail bottled water business in North America to separate the impact of these items from Primo's results of operations. Primo also utilizes Adjusted net income (loss), Adjusted net income (loss) per diluted share, Adjusted EBITDA and Adjusted EBITDA margin to separate the impact of certain items from the underlying business. Because Primo uses these adjusted financial results in the management of its business, management believes this supplemental information is useful to investors for their independent evaluation and understanding of Primo's underlying business performance and the performance of its management. Additionally, Primo supplements its reporting of net cash provided by (used in) operating activities from continuing operations determined in accordance with GAAP by excluding additions to property, plant and equipment and additions to intangible assets to present free cash flow, and by excluding the items identified on the exhibits hereto to present adjusted free cash flow, which management believes provides useful information to investors in assessing our performance, comparing Primo's performance to the performance of the Company's peer group and assessing the Company's ability to service debt and finance strategic opportunities, which include investing in Primo's business, making strategic acquisitions, paying dividends, and strengthening the balance sheet. With respect to the Company's expectations of its future performance, the Company's reconciliations of Q3 2022 and full year 2022 Adjusted EBITDA and 2024 Adjusted EBITDA are not available, as the Company is unable to quantify certain amounts to the degree of precision that would be required in the relevant GAAP measures without unreasonable effort. These items include taxes, interest costs that would occur if the Company issued debt, and costs to acquire and or sell a business if the Company executed such transactions, which could significantly affect our financial results. These items depend on highly variable factors and any such reconciliations would imply a degree of precision that would be confusing or misleading to investors. Primo expects the variability of these factors to have a significant, and potentially unpredictable, impact on the Company's future GAAP financial results. The non-GAAP financial measures described above are in addition to, and not meant to be considered superior to, or a substitute for, Primo's financial statements prepared in accordance with GAAP. In addition, the non-GAAP financial measures included in this earnings announcement reflect management's judgment of particular items, and may be different from, and therefore may not be comparable to, similarly titled measures reported by other companies.

Safe Harbor Statements

This press release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 conveying management's expectations as to the future based on plans, estimates and projections at the time Primo makes the statements. Forward-looking statements involve inherent risks and uncertainties and Primo cautions you that several important factors could cause actual results to differ materially from those contained in any such forward-looking statement. The forward-looking statements contained in this press release include, but are not limited to, statements related to the amount of shares that may be repurchased under the share repurchase program, future financial and operating trends and results (including Primo's outlook on third quarter and full year 2022 revenue and Adjusted EBITDA and Primo's multi-year growth algorithm), and related matters. The forward-looking statements are based on assumptions regarding management's current plans and estimates. Management believes these assumptions to be reasonable, but there is no assurance that they will prove to be accurate.

Factors that could cause actual results to differ materially from those described in this press release include, among others: the impact of the spread of COVID-19, related government actions and Primo's strategy in response thereto on our business, financial condition and results of operations; Primo's ability to compete successfully in the markets in which it operates; fluctuations in commodity prices and Primo's ability to pass on increased costs to its customers or hedge against such rising costs, and the impact of those increased prices on its volumes; Primo's ability to maintain favorable arrangements and relationships with its suppliers; Primo's ability to manage its operations successfully; currency fluctuations that adversely affect the exchange between currencies including the U.S. dollar, the British pound sterling, the Euro and the Canadian dollar; the impact on Primo's financial results from uncertainty in the financial markets and other adverse changes in general economic conditions, including inflation and interest rates; any disruption to production at Primo's manufacturing facilities; Primo's ability to maintain access to its water sources; the impact of climate change on Primo's business; Primo's ability to protect its intellectual property; the seasonal nature of Primo's business and the effect of adverse weather conditions; the impact of national, regional and global events, including those of a political, economic, business and competitive nature; Primo's ability to fully realize the potential benefit of transactions or other strategic opportunities that it pursues; Primo's ability to realize cost synergies of its acquisitions due to integration difficulties and other challenges; Primo's exposure to intangible asset risk; Primo's ability to meet its obligations under its debt agreements, and risks of further increases to its indebtedness; Primo's ability to maintain compliance with the covenants and conditions under its debt agreements; fluctuations in interest rates, which could increase Primo's borrowing costs; Primo's ability to recruit, retain and integrate new management; Primo's ability to renew its collective bargaining agreements from time to time on satisfactory terms; compliance with product health and safety standards; liability for injury or illness caused by the consumption of contaminated products; liability and damage to Primo's reputation as a result of litigation or legal proceedings; changes in the legal and regulatory environment in which Primo operates; Primo's ability to adequately address the challenges and risks associated with its international operations and address difficulties in complying with laws and regulations including the U.S. Foreign Corrupt Practices Act and the U.K. Bribery Act of 2010; the impact on Primo's tax obligations and effective tax rate arising from changes in local tax laws or countries adopting more aggressive interpretations of tax laws; disruptions in Primo's information systems; Primo's ability to securely maintain its customers' confidential or credit card information, or other private data relating to Primo's employees or the Company; Primo's ability to maintain its guarterly dividend; or credit rating changes.

The foregoing list of factors is not exhaustive. Readers are cautioned not to place undue reliance on any forwardlooking statements, which speak only as of the date hereof. Readers are urged to carefully review and consider the various disclosures, including but not limited to risk factors contained in Primo's Annual Report on Form 10-K and its quarterly reports on Form 10-Q, as well as other filings with the securities commissions. Primo does not undertake to update or revise any of these statements considering new information or future events, except as expressly required by applicable law.

(a) The tax effect for adjusted net income is based upon an analysis of the statutory tax treatment and the applicable tax rate for the jurisdiction in which the pre-tax adjusting items incurred and for which realization of the resulting tax benefit (if any) is expected. A reduced or 0% tax rate is applied to jurisdictions where we do not expect to realize a tax benefit due to a history of operating losses or other factors resulting in a valuation allowance related to deferred tax assets.

(b) Includes the impact of dilutive securities of 745 and 896 for the three and six months ended July 2, 2022 and 1,536 and 1,722 for the three and six months ended July 3, 2021, respectively. These dilutive securities were excluded from GAAP diluted weighted average common shares outstanding due to net loss from continuing operations reported in those periods.
